

TANK BLANKETING REGULATORS BKVI2

DESCRIPTION

Tank blanketing valves are commonly used in tank storage systems to prevent and protect against explosions (avoiding flammable liquids being vented from the vessel), to control product contamination against external air that may fill the vapour space, to reduce evaporation losses (consequently, production losses), to reduce internal corrosion (caused by air and moisture) and to prevent vacuum condition. The blanketing process consists in covering the stored medium, usually a liquid, with a gas (normally N2).

MAIN FEATURES

_ _ _ . _ . . _

Compact design. Non-rising adjustment knob.

STANDARD SURFACE FINISH

Internal movable parts and machined surfaces: $\leq 0,76$ micron Ra – SF3. Other surfaces: as casted. Ultrasonic cleaning.

OPTIONS:	Diaphragm leakage line connection.
	Gauge connection on body.
	External pulse line.
	Dome-loaded version.
	Blanketing with vacuum.
	Top cap (adjustment screw with cover). ATEX 😥 version.

- USE: Compressed air, nitrogen and other gases compatible with the construction. AVAILABLE
- MODELS: BKVI2 low pressure venting valve.
- SIZES: DN 15 and DN 25.

REGULATING RANGES:

- GES: 5 to 10 mbar; 10 to 50 mbar; 20 to 200 mbar; 50 to 500 mbar; 5 to 4000 mbar (dome-loaded).
- CONNECTIONS: Flanged EN 1092-1 PN 16.
- INSTALLATION: Vertical installation recommended, to allow drainage, or horizontal as close to the process as possible in order to prevent long pipe sections and flow restrictions. See IMI – Installation and maintenance instrucions.

LIMITING CONDITIONS

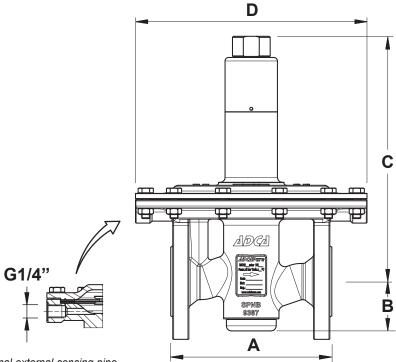

Valve model	BKVI2
Body design conditions	PN 16
Maximum operating pressure	6 bar
Maximum upstream pressure *	500 mbar
Minimum upstream pressure	5 mbar
Maximum design temperature **	130 °C

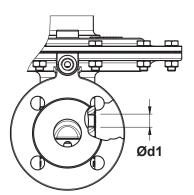

* 4000 mbar with dome load;

** Others on request.

Warning: Blanketing valves are not substitute for safety valves or vacuum relief valves.

DIMENSIONS (mm)									
SIZE	А	A B C D		D	d1	WEIGHT (kg)			
DN 15	130	47,5	243,5	230	1/4"	9,7			
DN 25	160	57,5	243,5	230	1/4"	10,8			

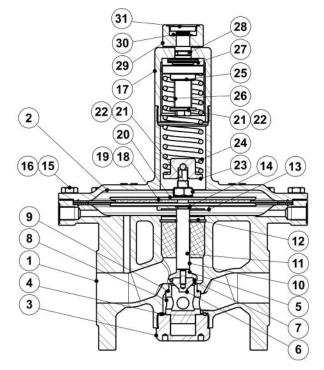

Optional external sensing pipe connection.

31	Cover nut	Plastic					
* Availa	ble spare parts:						

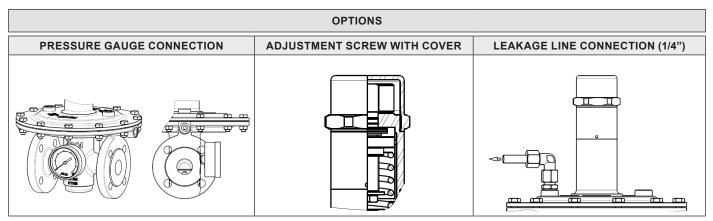

* Available spare parts;

FDA / USP Class VI seals certificate on request.

All valves have a serial number. In case of non standard valves, this number must be supplied if spare parts are ordered.
